Asbestos Removal Services

Asbestos Containing Material (ACM) can be found in many forms, from ceiling boards & roof sheets, to building insulation, trimmings & flowerpots.

Asbestos is a Hazardous product that can be found in various industries & pose a threat to people & the environment.

WE PROVIDE:

- Asbestos Identification
- Asbestos Inventory
- Asbestos Stripping, Demolition & Disposal
- Asbestos Maintenance
- Safe Disposal

NOT SURE IF IT IS ASBESTOS???

- Contact Rapid **0800 1 RAPID (72743)**
- Have a Representative conduct a site assessment
- Receive an inventory and sample analysis (Samples to be drawn as required)
- Asbestos inventories must be safely stored for 40 Years
- ACM must be maintained in a safe way to prevent fibres from getting airborne
- It is recommended that ACM be safely removed from all sites & disposed at a registered hazardous waste disposal facility.

ASBESTOS FOUND!! NOW WHAT!!!

- Contact Rapid **0800 1 RAPID (72743)**
- Have a Representative conduct a site assessment
- Schedule the safe removal of ACM
- Received disposal documentation & a clearance certificate

Follow us on Facebook for more information on Asbestos Regulations and training. <https://www.facebook.com/RapidAsbestos/>

5. Spill Kit Training

When purchasing spill kits for your vehicles, office, factory or warehouse, ask for training to ensure that your staff are competent in the prevention & safe containment of spills & leaks.

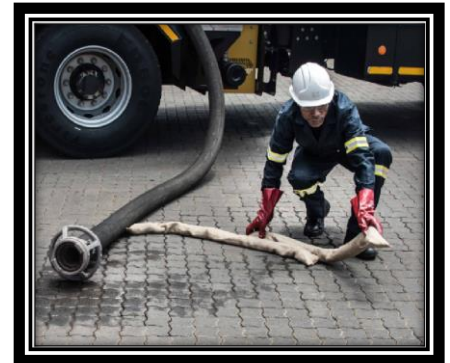

Spill kit training should be included in your company Emergency Response Plan (ERP) & Mock Emergency drills.

We offer a 2-hour training session covering theoretical & practical training.

The course covers the **9 Hazard classes** & **7 Steps to spill response**.

An attendance certificate is issued to each attendee & we recommend that a refresher course is done after every 12 months.

Contact us to scheduled spill kit training for your staff:
